Pitt Med Professionalism Accolade

CONGRATULATIONS!

Gregory Hayner, MD
PGY2 Resident
Department of Emergency Medicine

Dr. Hayner was a great resident from the start! He allowed me to have autonomy with patients, conduct my own H&P, and create my own differential and plan before discussing it together. He focused on teaching while always providing outstanding clinical care. I could tell he also cared about my well-being (which I appreciated) and allowed me to take on more responsibility as I was comfortable doing so!
