Pitt Med Professionalism Accolade

CONGRATULATIONS!

Natalie Gentile, MD

Faculty
Department of Family Medicine

Dr. Gentile is a proud UPSOM alum that is not only dedicated to teaching medical students, but also wholeheartedly dedicated to her patients and the community. She is an inspiration to female physicians-in-training, demonstrating that it's possible to achieve everything and more--being a successful businesswoman, a mother, and an amazing physician that goes above and beyond caring for her patients. Her community work has centered on spotlighting women's health and wellness, and it's incredible to see someone that is operating outside the traditional confines of a insurance-based model of practice to bring care to the self-employed, members of the service industry, and even just individuals who desire continuity of care. She had taught me so much about being a family physician and being an advocate for patients, and it has been an honor to have worked with her and learn from her over my one month clerkship.
