Pitt Med Professionalism Accolade

CONGRATULATIONS!

Julia Bulova
MS3 Student

Julia made the long hours and stress of the IM clerkship bearable. She was always looking out for her fellow students to ensure we were on the same page - for example, coordinating so we would all have the same number of patients. Despite the million things we had going on, she always knew when and where our teaching sessions were and made sure to inform the senior and make sure we got there on time. She was met with multiple challenging situations that she handled with grace and made a positive impact on patient care: for example, on two occasions she was the first to notice (during pre-rounds) that her patient was taking a turn for the worse, leading to the team calling a Condition C for those patients. Finally, she displayed incredible kindness and perceptiveness regarding her patients' socioeconomic and emotional factors that could impact their care. I have learned so much from being with her on IM!
