Pitt Med Professionalism Accolade

CONGRATULATIONS!

Savannah Tollefson, MD

PGY1 Resident
Department of Obstetrics, Gynecology, & Reproductive Science

Savannah is the resident you always hope you are on a team with. She embraces medical students and consistently finds ways to teach. My fellow medical students and I appreciate the time she took out of her day to facilitate mini chalk talks, answer our questions, and prep us for our Shelf exams. Savannah is a model PittMed grad and pays it forward to current medical students. She leads with kindness. I hope to be as humble, approachable, and knowledgeable as her and when I am a resident someday.
