Pitt Med Professionalism Accolade

CONGRATULATIONS!

Pritha Workman, MD
Faculty
Department of Obstetrics, Gynecology & Reproductive Science

Dr. Workman and her team meticulously planned this clerkship, coordinating several moving parts and accommodating more medical students than usual. She was well organized with clear expectations and provided actionable corrections. What's more, Dr. Workman was exceptionally generous with her time making sure that everyone had the opportunity to see the conditions and procedures they hoped to see during the rotation. For example, she spent extra time with students to ensure we could help with a labor and delivery if we were otherwise unable to see a delivery. I am so grateful for the opportunity I had during my OBGYN clerkship.
