Pitt Med Professionalism Accolade

CONGRATULATIONS!

Lauren Stumpp
MS3 Student

Since her first days at PittMed, Lauren has done her best to make PittMed better for her classmates and the classes of students that will follow in her footsteps. As a second year medical student, curriculum rep, and CCQI member, Lauren saw an opportunity to evaluate the resources that PittMed provides to our students studying for Step 1 during "dedicated." Lauren wrote, distributed, and analyzed a survey of her classmates and identified the ways in which students felt most supported by the school, as well as areas where we can provide even greater support. Then, she had a conversation with her classmates using the "After Action Review" template (the same one we use for Feedback Friday!) and shared all of her results with the Office of Student Affairs. Lauren has presented her work related to this project at THREE national meetings and at the last meeting, she won FIRST PRIZE for Most Outstanding Oral Presentation with a PERFECT SCORE from the judges! As her mentors, we could not be more proud of her hard work and her contribution to the PittMed community!
