Pitt Med Professionalism Accolade

CONGRATULATIONS!

Abigail “Abby” Yohannes

MS2 Student

As soon as she got to PittMed, Abby started looking for ways to contribute to our PittMed community. She signed on as a member of CCQI and was then elected by her peers as a curriculum rep. Students and faculty alike are so grateful for her constant present at weekly "Feedback Friday" meetings. To help other schools learn about "Feedback Friday," Abby wrote and submitted two abstracts to national meetings, and both were accepted! She has already given one oral presentation at a national meeting and did an OUTSTANDING job, so much so that other schools have reached out to her to learn more about how they can improve their own feedback systems. Abby's work has also been accepted at the very prestigious "Learn Serve Lead" annual meeting of AAMC, where she will present in November. As a brand new MS2, Abby has already done so much to strengthen our PittMed community and to share what is happening at PittMed with others around the country. As her research mentors, we could not be more proud of her hard work and all that she has already accomplished. We are so excited to continue to work with her as she steps into MS2!
