Pitt Med Professionalism Accolade

CONGRATULATIONS!

Ruxandra Ionescu, MD
PGY2 Resident
Department of Medicine

Ruxandra was a great senior resident to have on the Internal Medicine rotation. She helped students greatly with getting oriented to Shadyside and allowed students to take on more responsibility and be more involved in the care team. On rounds, she would often ask us about our thinking and frequently engaged our opinions in patient care and encouraged students to think more broadly about the medical and social barriers facing patients in the inpatient setting. Her energy and enthusiasm for teaching was greatly appreciated and she set a fantastic example of team culture. I am confident that she will be a patient advocate as she continues her training as a cardiologist.
