Pitt Med Professionalism Accolade

CONGRATULATIONS!

Nirav Bhatt, MD
Faculty
Department of Neurology
Division of
Cerebrovascular
Medicine

Dr. Bhatt is an outstanding teacher and physician. For third-year students on Neurology assigned to Stroke Service, he took the time to give small, digestible lectures and showed an incredible passion for teaching. He made sure we knew of relevant studies and updates in the field, all the while providing the context that students early in third year needed. He even opened up his service to students who were waiting for another attending on days when he did not have other learners. Dr. Bhatt made everyone feel welcome, comfortable and supported- answering questions, taking time to check-in and even offering coffee…He is an exemplary clinician-educator in every respect.
