Pitt Med Professionalism Accolade

CONGRATULATIONS!

Mikhaila Layshock
MS4 Student

Mikhaila was such an asset to the Green team, especially for the third year students! She had an impressive amount of responsibility as an Acting Intern and also took time to mentor the three students on rotation. She was always willing to talk through plans before rounds and was involved and interested in complex care of inpatient needs. Her warmth and dedication to her patients was impressive, and from note skills to resources on rotation, Mikhaila was the glue of Green Team and really made our experience on inpatient memorable.

She will be a wonderful pediatrician!
