Pitt Med Professionalism Accolade

CONGRATULATIONS!

Michael Knapp
MS4 Student

Mike was my Acting Intern during my Adult Inpatient Medicine Clerkship. He was incredibly helpful and supportive of myself and the other third year medical student on our team. He showed us the ropes on day 1, constantly advocated for us, would give helpful feedback daily and answer our many questions, and generally created and fostered a learning environment that was supportive and positive. I could not have succeeded during my time at Montefiore without his technical and clinical advice and general moral support and cheerleading…In his own patient presentations and interactions, I got to see what "Dr. Knapp" will look like taking care of patients, and it gives me hope for the future of medicine. He is going to be an excellent doctor in the very near future, and it was a pleasure getting to work with and learn from him during our month together.
