# Pitt Med Professionalism Accolade

## CONGRATULATIONS!

**Pooja Reddy**

MS2 Student

I would like to recognize Pooja for her exceptional contributions to the learning community of the University of Pittsburgh School of Medicine and her dedication to female mentorship within the ENT community. Pooja's commitment to fostering an environment of collaboration and knowledge-sharing is truly commendable, as she continually strives to uplift and empower her peers and colleagues. She is infrequently found without a smile on her face and shows up for her classmates in a plethora of ways. Pooja has not only demonstrated exemplary leadership in her role as ENT IG coordinator but has also inspired MS1s to pursue excellence in ENT. She has taken time to teach younger students research skills and sets a positive example for those looking to pursue a similar career. Her passion for uplifting the next generation of medical professionals reflects the highest ideals of scholarship and service.
