PITT MED PROFESSIONALISM ACCOLADE

LEE-KAI SUN

MS3 Student

"Patient overdosed on morning rounds and a conditioned was called. IV narcan could not be given because of poor IV access, and there was no intranasal narcan on the floor. Fortunately, Lee-Kai had intranasal narcan and demonstrated great initiative by taking charge of the situation and giving it to the condition team. The patient OD was able to be reversed by his courageous actions."
