PITT MED PROFESSIONALISM ACCOLADE

RONIT KAR

MS3 Student

"I genuinely learned so much from being with Papai on my Internal Medicine rotation. He truly made the most of every learning opportunity possible by asking to be involved in whatever he could - a goals of care discussion, a bladder ultrasound, a paracentesis, etc. He never minded staying late for an extra chance to learn or aid the team. He was kind and helpful to everyone, including the nurses and aides whose names he all knew (and vice versa).

In addition to being extremely knowledgeable medicine-wise, he was also so great at developing rapport with patients. On multiple occasions, he helped diffuse high-intensity situations with his patients, including talking down a patient with potential SBP who was threatening to leave AMA. Also, he taught me so much about cardiology which came in clutch both for my presentations on rounds and for the shelf. He was in every way a model student and a credit to Pitt Med, and I have no doubt he will be an amazing physician!"
