PITT MED PROFESSIONALISM ACCOLADE

SUMAARG PANDYA

MS3 Student

"This medical student went above and beyond in this rotation. He always showed curiosity and even helped with patients he wasn't holding by trying to find answers and show concern! He always stayed and helped everyone with their issues and workload.

He also has a natural ability to connect with patients, making them feel heard and cared for. Their genuine empathy and warm approach help put patients at ease, which is such a vital skill in medicine. In some settings we would send him to help us with difficult patient situations and he would always be a clear asset. It's clear that he will be a great resident and one who truly makes a difference in people's lives."
