# Pitt Med Professionalism Accolade

## CONGRATULATIONS!

**Sean Wallace**

MS2 Student

Sean showed his commitment to learning and his peers repeatedly in the time and energy he dedicated during the Point of Care Ultrasound Certificate Program. He lent his free time and skills to facilitate learning, even when he was already proficient in the scanning objectives. Sean would frequently stay late or come to Scaife on the weekends to help classmates scan. His constant enthusiasm, easy-going attitude, and careful preparation enhanced the learning of other students immensely.
