PITT MED PROFESSIONALISM ACCOLADE

MAYA SINGH

MS2 Student
ELEAP Accolades Chair

"It has been a pleasure to work with Maya in her capacity as the ELEAP Accolades Chair for the past year. Going beyond her duties, she has come up with valuable ideas for how the Accolades process can be streamlined and improved. Even though she is now moving on from the position as she prepares to enter her MS3 year, she has made sure the transition will be as easy as possible for the new Chair by meeting with them one-on-one to discuss the position and sending them the detailed checklist she created for the process of sending Accolades. Maya brings everything to the table for any team she is a part of and will make an incredible physician one day in whichever field she decides to pursue!"
