PITT MED PROFESSIONALISM ACCOLADE

GREGORY "GREG" VARGA

MS3 Student

"...I asked [Greg] to give a talk to undergraduates applying to medical school and give them guidance. He was here for over an hour speaking to them on every detail of the process. He was incredibly helpful and encouraging. He helped each of them think about their plans, how to write essays, how to gain opportunities, and how to craft personal statements... He has a desire to give back his knowledge and experience to help others in his position and gave his contact information to set up additional meetings for help. I think this shows that he continues to help people who are in need and does not forget what it was like to be in another's position."
