PITT MED PROFESSIONALISM ACCOLADE

DIVYA KATTI

MS1 Student

"Divya is an extremely caring and dedicated volunteer when serving vulnerable populations, such as unhoused individuals, particularly women. I have worked with her in a handful of volunteer contexts, including on Street Rounds through Street Medicine at Pitt and at the 2nd Avenue Commons Clinic, and I am consistently impressed by how truly compassionate Divya is when serving patients. She truly and deeply cares for vulnerable people, and she does so with grace and professionalism which is uplifting and inspiring. She is also very humble and underspoken about her service and is never one to brag. She is going to be an incredible physician who is a true advocate for her patients."
