PITT MED PROFESSIONALISM ACCOLADE

HENRY HOFFMAN

MS4 Student

"While studying for shelf exams and Step, Henry was a constant source of support and encouragement. He was always happy to offer resources, quiz me on challenging topics, and work together to break down complex material. His collaborative spirit and generosity throughout stressful times made demanding clerkships and exams feel manageable. I feel deeply grateful to have had him as a study partner and classmate, and I'm confident that wherever he goes next, he will be an asset to his team and a continuous source of encouragement to the learners who work with him."
