PITT MED PROFESSIONALISM ACCOLADE

ADAM YATES, MD

Faculty
Department of Emergency Medicine

"Dr. Yates has been an all-around fantastic small group facilitator for medical interviewing! He's created a comfortable environment that empowers us to try new things and not feel afraid of making mistakes. He provides feedback in a way that uplifts and encourages, and it's because of his casual yet still professional teaching style that I am excited to participate in small group every week. To me, he embodies the community values and ideals that Pitt Med strives to foster!"
