PITT MED PROFESSIONALISM ACCOLADE

OLIVIA RIVELLINI

MS1 Student

"Olivia Rivellini was an outstanding resource and confidant for me during social history medical interviewing. I had a humbling encounter with an SP and felt confused and disheartened. Olivia took the time to educate and empathize with me, providing me a cultural context I wasn't aware of. Her empathetic, open mindedness, and non-judgmental nature has been invaluable to me as a student and human being. I'm so grateful that the community has someone like her advocating for them and empowering students to feel part of the solution."
