PITT MED PROFESSIONALISM ACCOLADE

CHRISTOPHER "CHRIS" FEDOR

CSTP Student

"I would like to recognize Chris for consistently demonstrating the highest standards of professionalism at Pitt Med. His research scope, projects, and leadership are of exceptional quality and is truly unparalleled among our class. Beyond his own achievements, he has been remarkably generous in helping me and other medical students get started with research, brainstorming ideas, guiding abstract submissions, and advising on applications for scholarships and clinical research funding.

On top of his outstanding research, Chris maintains in superb academic standing, making him a continual source of inspiration to me and our classmates. Despite all of these accomplishments, he remains humble and eager to learn from the expertise of others. His willingness and enthusiasm to share knowledge and support others exemplify the core values of our learning environment and elevate the research culture at Pitt Med."
