PITT MED PROFESSIONALISM ACCOLADE

WILL HUTSON

MS1 Student

PITT MED STUDENT EXECUTIVE COUNCIL'S STUDENT OF THE MONTH OCTOBER 2025

"Will Hutson has been going above and beyond during the EDR courses, taking the time to explain all of the material we have gone over for the past two sessions. He explains the concepts related to study design, statistics, and interpretation in an easily interpretable way, while giving context to how it is implemented in a real research setting. It would be easy for him to work on other things while people struggle to learn difficult material, but instead he spends hours teaching it, answering specific questions, and rephrasing things when people are having a hard time understanding. He has been an instrumental part to everyone's comprehension and success in the course, while ensuring a comfortable and enjoyable learning environment."
