PITT MED PROFESSIONALISM ACCOLADE

JONATHAN ALDER, PhD

Faculty
Department of Medicine
Division of Pulmonary, Allergy, Critical Care & Sleep Medicine

"...Jonathan Alder in my opinion was the most insightful a volunteer professor can be. He completely reshaped the way I thought about research articles and has opened my eyes on a whole new approach to reading published papers. He has an infectious attitude that made discussing complex science early in the morning a joy. Which is a daunting task."
