PITT MED PROFESSIONALISM ACCOLADE

AGNIESZKA BIALY, MD

Faculty
Department of Emergency Medicine

"Dr. Biyali (My CSP) is incredibly amazing. She is very professional, kind, and creates an environment where students feel supported in their learning. Failures are seen as opportunities to learn and are handled very gracefully. She highlights all our strengths while encouraging us to grow in the areas of our weaknesses. She is also a very delightful human to be around and gives a glimpse of what a well-balanced physician looks like.

This has been a very great learning experience for me, especially with limited patient experience prior to medical school. I have gained lots of confidence in developing my professional identity through this experience."
