PITT MED PROFESSIONALISM ACCOLADE

SAMUEL "SAM" BISHOP

MS2 Student

"Sam served as an Anatomy TA for the M1s this past fall. I really appreciated him being available and approachable to answer my questions, specifically about the neck structures and the ultrasound cases.

Several hours before the actual time we had scheduled to review the neck anatomy in the cadaver lab, I saw him preparing for our tutoring session. It was really kind of him to spend the extra time to prepare to teach. I contacted him again a week later to review the ultrasound material, and rather than just reviewing the presentations, Sam brought out an ultrasound machine to help walk me through in real-time how to interpret the ultrasound images.

I hope this accolade helps Sam gets the recognition he deserves for his generosity, kindness, and dedication to supporting his classmate."
