PITT MED PROFESSIONALISM ACCOLADE

COLLEEN CASEY

MS1 Student

"I would like to recognize Colleen for their outstanding professionalism, generosity, and commitment to the learning of others. Despite the demanding schedule of medical school, they consistently take time out of their own personal study and self-care to organize and lead group EKG teaching sessions for our classmates. Drawing on their strong background in medicine, they go above and beyond to explain complex concepts with clarity, patience, and genuine enthusiasm, ensuring that everyone feels supported and empowered to learn!!! I could not be more grateful for them!"
