PITT MED PROFESSIONALISM ACCOLADE

JOSEPH MAROON, MD

Faculty
Department of Neurological Surgery

"Dr. Joseph Maroon has been an incredible mentor and role model as I've started medical school and begun getting involved in research. He has consistently challenged me to think more critically while also making the learning process genuinely enjoyable… Beyond academics, he has always been willing to take time from his busy schedule to talk through the bigger picture of how to balance medicine with life. He has shared practical advice on how to keep training for races when academics get busy, which is something he has learned through his long career as a surgeon and Ironman athlete. He has been pivotal in helping me become a better researcher and a more thoughtful future physician…"
