PITT MED PROFESSIONALISM ACCOLADE

DANIEL KIM, MD

PGY2 Resident
Department of Anesthesiology and Perioperative Medicine
General Anesthesiology Program (PUH)

"Dan demonstrated outstanding professionalism and a great commitment to education. I had the opportunity to work with him during the anesthesiology clerkship. He went above and beyond to create an inviting learning environment. He constantly made himself available for teaching and feedback, and checked in to evaluate my understanding. He advocated for me to attempt various procedures and looped me in to the higher level decision making that was done pre-operatively. He is an exceptional teacher and deserves recognition for his commitment to medical student education."
