PITT MED PROFESSIONALISM ACCOLADES

Cultivating a Positive Learning Environment

HENRY MITCHELL, MD

PGY1 Resident
Department of Pediatrics
General Pediatrics Program (CHP)

"Dr. Mitchell consistently ensured that I was actively involved in all aspects of patient care. He regularly checked in regarding the patients I evaluated independently and kept me informed of important clinical developments that occurred while I was away, fostering a strong sense of inclusion and continuity in my learning. He encouraged me to take the lead during patient encounters, helping me build confidence in communicating with patients and addressing their questions.

Dr. Mitchell is also an exceptional educator who approaches teaching with thoroughness and structure. He challenged me to formulate independent assessment and management plans and articulate my clinical reasoning, providing thoughtful feedback that significantly strengthened my clinical decision-making skills.

Dr. Mitchell created a supportive learning environment that balanced autonomy with guidance, making each patient encounter a valuable educational experience. It was a genuine pleasure to work with him, and I greatly appreciated his dedication to both patient care and medical education."
