Cultivating a Positive Learning Environment

CHRISTOPHER CURRAN, DO

PGY2 Resident
Department of Medicine
General Internal Medicine Program (PUH)

"Dr. Curran was the single best resident I have worked with as a medical student. Even on the busiest days, he made time to teach us topics that were both relevant to our patients and high-yield for our shelf exam. He pushed us to take real ownership of our patients by updating families, contacting consulting services, and taking an active role in developing each patient's plan. He challenged us to think beyond the immediate problem and understand the patient's overall clinical course, while always being available when we needed help. Most importantly, he made us feel welcome and treated us as valued members of the team.

I am a much more confident medical student because of my time with Chris, and working with him and his team sparked a genuine interest in internal medicine, a career path I had not seriously considered before this rotation."
