# PITT MED PROFESSIONALISM ACCOLADES

Cultivating a Positive Learning Environment

## JONATHAN BECKEL, PhD

Faculty
Department of Pharmacology & Chemical Biology

"Dr. Beckel has given two great pharmacokinetics lectures, and they have both been my favorites so far. I appreciate his clarity in explaining and expanding upon the pre-learning while giving relevant clinical implications of the drug mechanisms that he discusses. I also really appreciated his energy throughout the lecture, using jokes and other additions to connect and engage with the material. I do think that his lectures have been the best so far in conveying the material in a manner that fosters comprehension and long-term retention."
