

# Pitt Med Professionalism Accolade

## CONGRATULATIONS!

**Blaise Abramovitz**

Faculty  
Department of Medicine

Dr. Blaise Abramovitz has been an incredibly enthusiastic and professional facilitator. He has created a learning environment where all students feel comfortable asking questions or attempting to answer a question, taking time to ensure that everybody understands concepts before moving on. Through jokes, nephron-enthusiasm, and amazing muffins (thanks to his wife!), renal workshop became one of the best learning experiences thus far in medical school and also very fun.
