Pitt Med Professionalism Accolade

CONGRATULATIONS!

Vildan Tas, MD, FAAP

Faculty
Department of Pediatrics
Division of General Academic Pediatrics

Every Peds student who gets the opportunity to work with her knows that she really loves her students. She really cares about their learning, and you can tell anytime you talk with her. And for me specifically, she's always quick to respond and really cared to ensure my Peds experience was as good as possible. She's also an amazing mentor for several hoping to get into medicine.

– Submitted by a Medical Student
Pediatrics Clerkship, Fall 2023
