# Pitt Med Professionalism Accolade

## CONGRATULATIONS!

**Sarah Taylor, MD, PhD**

**Faculty**
**Department of Obstetrics, Gynecology & Reproductive Sciences**

Dr. Taylor is a phenomenal leader, role model, and mentor and performs her clinical and teaching duties to a level that all faculty members should strive to achieve. There are simply not enough words to express my appreciation for her efforts and my joy of learning from such a fantastic physician scientist. In my future medical career, I will attempt to model her quality and strive to support my students to the level that she has demonstrated is not only possible but necessary for effective learning. Working with Dr. Taylor was one of the very best experiences of my medical school training.

***– Submitted by a Medical Student***
***Obstetrics and Gynecology Clerkship, Spring 2024***
