

Pitt Med Professionalism Accolade

CONGRATULATIONS!

Gregory Watson, MD, FACS

Faculty
Department of Surgery

Dr. Watson demonstrated exceptional professionalism and kindness throughout our time together in clinic and in the OR. He was always intentional about providing quality teaching and thoughtful feedback and encouragement, even when he was coming off of an overnight shift. He has a remarkable way of making those he works with feel seen, heard, dignified, and empowered. I am grateful for Dr. Watson's example as an exceptional physician leader.
