Pitt Med Professionalism Accolade

CONGRATULATIONS!

Pritha Workman, MD

Faculty
Department of Obstetrics, Gynecology & Reproductive Sciences

Even beyond my time in medical school, Dr. Workman is 1 of the best teachers I've ever gotten to work with...First, I've heard so many students across classes mention that she singlehandedly changed students' perceptions of the OBGYN clerkship by improving every student's experiences. Second, she personally met with me virtually and over phone calls during and after work hours... And every week, she'd check on me multiple times and would preview my upcoming week's experience beforehand. As someone who wasn't well-versed on surgery, OB, or GYN, this was so helpful in preparing me for each upcoming week. She wasn't someone who waited but was someone who was always proactive and took initiative beforehand so I was best prepared for my OBGYN experiences. She went above and beyond, and really demonstrated how exceptional she is as a mentor, advisor, medical educator, coordinator, and leader.
