

Pitt Med Professionalism Accolade

CONGRATULATIONS!

Throughout my surgical experience, Dr. Adams consistently checked in to ensure that it was both educational and interesting. As an intern, he provided a helpful framework, but also encouraged me to adapt it to my needs. He provided specific and actionable feedback to improve my clinical abilities. He exemplified incredible humanism by spending extra time with patients, explaining difficult topics and diagnoses, and being considerate to other providers and staff. In addition, he was creative in his teaching methods, such as using multiple layers of tape to simulate a wound and improve efficiency of movement during suturing.

Eric Adams, MD
PGY-1, Department of Surgery
