

Pitt Med Professionalism Accolade

CONGRATULATIONS!

Rachel Dang, MD

**PGY-3, Department of Obstetrics,
Gynecology and Reproductive
Sciences**

Dr. Rachel Dang was a wonderful leader, healthcare provider and educator during my time in L&D. She thoughtfully communicated with the team. She made medical students feel welcome at all times. I also observed Dr. Dang during an external cephalic version. She ensured that the patient felt included during the entire maneuver. She made every attempt to provide the patient with effective care while also expressing compassion. She was an extremely effective leader among the other residents and healthcare providers. Moreover, Dr. Dang went out of her way to offer education to medical students and asked them what they would like to learn more about. She took time out of her extremely hectic and busy schedule to sit with me and provide teaching. I learned so much during my experience with her, both about medical care and about compassionate treatment of patients and other team members. She provided a much-needed welcoming learning environment.
