

Pitt Med Professionalism Accolade

CONGRATULATIONS!

Jacob Hernandez, MD
PGY-1, Department of Medicine

Dr. Hernandez went out of his way to educate and support the medical students on the team. He made student education a priority during his time on the rotation, even naming it as one of his academic goals for the month. He repeatedly took significant time to teach, suggest learning points, share useful resources, set students up to succeed, and support medical students in front of the team despite having a full patient load and being quite busy himself. He consistently performed the difficult and often unseen tasks that promoted student success. Dr. Hernandez's dedication, time, and energy should be recognized and highly valued.
