

# Pitt Med Professionalism Accolade

## CONGRATULATIONS!

**Humza Ahmed, MD**

Resident

Department of Neurology

Humza was always so understanding even when I think he himself was so overwhelmed with patient care. We had an exceptionally bad week, still, he was always trying to teach me, encourage me, and make me feel welcomed. Overall, from a medical student perspective, Humza is the exact epitome of what you'd hope to have as a resident. He's someone who truly cares not only about his patients but also his students.
