

Pitt Med Professionalism Accolade

CONGRATULATIONS!

Thomas Fiorica, MD

PGY2 Resident

Department of Psychiatry

...Tom had heard this [difficult interaction] and immediately debriefed this situation with me...he made sure that I knew that he was available if I ever needed to talk. He absolutely made sure my overall experience wasn't affected...he has constantly checked in to make sure I was having a good experience even when he was so inundated himself.
