Pitt Med Professionalism Accolade

CONGRATULATIONS!

Nicole Fischer, MD, MPH

PGY3 Resident
Department of Obstetrics, Gynecology & Reproductive Sciences

Dr. Fischer was an amazing resident to work with during the course of the rotation. She made an effort to keep myself and the other medical students involved in all aspects of the team and patient care. Her interactions with the patient before and after surgery displayed a high level of empathy while providing thorough explanations and allowing the patient to feel heard. It was evident through her interaction with myself, the interns, the patients, and the attending how much thought, preparation, empathy that surrounds her interactions.
