

Pitt Med Professionalism Accolade

CONGRATULATIONS!

Dr. Cole Hansell, MD

**PGY2 Resident
Department of Medicine**

Dr. Hansell is not only an incredibly competent provider in terms of his knowledge of medical management for patients, but he also excels in the social, emotional, and psychological management of patients within the intensive care unit. He possesses a deep and comprehensive understanding of critical care, coupled with a remarkable ability to apply this knowledge in clinical settings...Dr. Hansell also approaches patient care with a holistic perspective, consistently prioritizing each patient's needs and well-being.

Furthermore, I find Dr. Hansell's communication skills exceptionally admirable. He has an innate ability to convey complex medical information in a clear and compassionate manner, ensuring that patients feel heard and understood...His interactions with staff, from nurses to fellow physicians, are marked by respect, kindness, and a collaborative spirit, contributing to an efficient and positive workplace atmosphere—a testament to his caring and kind-hearted personality.

As a resident mentor and teacher, Dr. Hansell has significantly impacted my education. He possesses a gift for teaching, simplifying complex concepts into digestible lessons, and always encouraging questions. His guidance has been invaluable, especially in understanding the nuances of medical patient care, procedural patient care, and clinical decision-making...I have been consistently impressed by his composure and his ability to maintain a calm and effective environment. His leadership during such times has not only ensured optimal patient care but also provided a valuable learning experience in managing challenging scenarios.
