

Pitt Med Professionalism Accolade

CONGRATULATIONS!

Nat Jones, MD

PGY2 Resident

**Department of Obstetrics,
Gynecology & Reproductive
Sciences**

Dr. Jones was one of the most outstanding residents I have ever worked with. They made sure to involve me in each part of the workflow of the OR day and encouraged me to ask questions at any point. Additionally, they would facilitate interactions between me and the attending so that I could take a larger role in procedures. They made me feel like I truly had a role on the team and was valued. Any student would be lucky to work under Dr. Jones during their time at Pitt Med.
