

Pitt Med Professionalism Accolade

CONGRATULATIONS!

Issa Mohamad, MD

Fellow

Department of Otolaryngology

I've been spending my first week of my ENT rotation on Head and Neck Surgery. Moe has been my chief during this time and he continually goes above and beyond expectations. He not only excels at managing the team regarding knowledge and preparation for his patients, but he also is a superb teacher and exhibits a love of doing so. Moe is always looking for opportunities for me to learn and goes out of his way to help me thrive. He excels at what he does and I wanted to recognize him for making my week exceptional.
