Pitt Med Professionalism Accolade

CONGRATULATIONS!

Christopher Keenan, MS1
Medical Student

The medical students were each instrumental in the success of the Mission of Mercy event at the Convention Center on August 5th and 6th.
Over two days, they gave their time, skills and sweat to help prescribe eyeglasses for over 700 of our neighbors in need.
They performed patient intake testing and choreographed the flow of patients from station to station.
In doing so, they embodied PittMed and UPMC's commitment to providing care with dignity & respect to all members of our community.
I believe that their efforts will serve as an example across UPMC and PittMed.
The event could not have happened without them.
