

Pitt Med Professionalism Accolade

CONGRATULATIONS!

Brian Kolich
MS4 Student

I would like to recognize Lucy Gabriel, Jacob Puyana, Brian Kolich, and Makenna Laffey as educators in the MS2 Clinical Procedures Course: Intro to the OR. Lucy taught 2-handed knot tying. Jacob and Brian teamed up to teach interrupted and subcuticular suturing. Makenna taught students how to gown and glove. They all acted in unscripted mock OR scenarios of do's and don'ts like seasoned thespians. The MS2s greatly benefited from having their seniors guide them through new territory in a stress-free environment. Lucy, Makenna, Jacob, and Brian are true role models who represent what is best about Pitt Med.
