

Pitt Med Professionalism Accolade

CONGRATULATIONS!

Arjun Mittal
MS2 Student

Arjun worked tirelessly leading the efforts to transition Pitt Med towards a new Slack interface for communication. His willingness to take this on will benefit all Pitt Med students for years to come, facilitating better coordination around Interest Group meetings and student updates. He incorporated feedback from a number of diverse groups of his peers to develop our Slack channels, and took on all the work behind the scenes to get it up and running. He took an idea that many believe would be hard to implement and change and ran with it. He is a person of very high character who cares deeply about the roles he takes on, and he deserves the credit!
